

DAVID'S FOLLY?

Of Winston Churchill's invention, i.e., the tank (derisively called *Winston's Folly* at the time) the following is written:

"... Any number of different experts and committees had rejected the idea. **No one except Churchill thought it would work.** In a similar fashion, disbelievers often attempt to thwart innovators in organizations. Innovators naturally seem to first run into the scoffers, then the cynics, followed by the critics, and finally the surprised." *Communicating For Managerial Effectiveness*, page 252, Phillip G. Clampitt.

So with our commitment to challenge Islam. Though we've certainly encountered the cynics, God's challenge still stands – *may the God who predicts the future be the true God!* Isn't that fair? If Mohammed were a true prophet, shouldn't there be even one prophecy in the Koran? There's none! Publicly challenging Islam on this point will, I believe, convince millions (Moslem and non-Moslem) as to the superiority of the Bible, the role of the Messiah as the *Lamb of God* and the validity of the spirit of prophecy! Shot from the Mount of Olives, this brief video explains why we traveled to Israel in December and why we want so desperately to return. Can you help us?

Our campaign to reach Moslems with *The (New, Illustrated) Great Controversy* is underway. In December [it took us to Israel](#) to scout out an appropriate roof from which to film our message. *Roof?* Yes! According to the Israeli production crew with which we're doing business, mentioning Jesus at the *Dome of the Rock* or the *Wailing Wall* could get us stoned. Solution: film from a roof. (We found the perfect roof on Day 4).

With Islam's 3rd most holy site, *The Dome*, as a backdrop, Moslems by the millions will be glued to their screens. How will they find us? We'll use [posters](#) that have already been approved by the NY Metropolitan Authority (the agency regulating subway, train and bus advertising in New York City). Those posters will reach NYC's 5,000,000 daily subway riders and will ask one question: *So What Exactly Did Prophet Mohammed Predict?*

So powerful is this [headline](#), we believe, that wherever it is seen (thanks to e-mail, telephone calls, text messages and television transmitters) it'll reach Islam. Moslems and non-Moslems by the millions will click on the website we've created for this campaign: www.askamoslem.com.

There they'll see our sermon reiterating God's challenge as found in Isaiah 41:23:

"Shew the things that are to come hereafter, that we may know that ye are gods."

At the end of that video they'll be introduced to *The (New, Illustrated) Great Controversy*. There's just one catch: with [war between Israel and Iran](#) on the horizon, whatever we're doing must be done quickly. Notwithstanding the climate of uncertainty hovering over the country, our minds are made up. Just as soon as we get the funding (God sparing our lives), **we're going back to Jerusalem to film.** All we ask are your financial support and prayers.
